EVIDENCE OF INTEREST

Lay Almost Hidden in Schedule of Oil Tariffs.

UNFOLDED IN FEDERAL SUIT

Operations of the Standard Oil Pipe Lines Revealed by Calvin M. Payne. Independent Concerns Could Not Use Trust's Line.

New York, Sept. 26.—Some interesting evidence that lay almost hidden in a voluminous schedule of oil tariffs submitted to the interstate commerce commission by the Standard Oil company, was unfolded Wednesday at the hearing of the federal suit against the so-called oil trust, when Calvin M. Payne, vice president of the National Transit company, told about the various pipe lines of the oil combine. The schedule shows that tariffs for crude oil through the Standard's pipe lines are fixed at Unionville, on the state line between New York and New Jersey, and Center Bridge, located on the New Jersey-Pennsylvania state line.

Frank B. Kellogg, conducting the federal action, asked Mr. Payne if Unionville did not spring into existence in 1906, when the Hepburn bill, which provides that common carriers must publish tariff schedules, became a law. Mr. Payne testified that Unionville loomed up in the summer of 1906 while he was abroad. The government's counsel further developed that at Unionville the pipes of the National Transit company, carrying oils of the Eureka Pipe Line company, the Buckeye Pipe Line company, the Southern Pennsylvania Pipe Line company and the National Transit company, from Lima, O., to the seaboard, connects with the pipe line of the Standard Oil company of New Jersey. Mr. Payne said that as the lines of these companies ended at Unionville and Center Bridge, the tariff schedules are fixed for those points.

Independents Shut Out.

Mr. Kellogg then endeavored to show that no independent could send oil to the seaboard over those lines, because rates could not be obtained from those points to the seaboard. Mr. Kellogg said the Standard would not publish rates on its line through New Jersey and as a consequence independents were shut out from tidewater.

The control of the Corsicana Refining company of Texas, which the government in its bill of complaint alleges is really vested in the Standard, was inquired into Wednesday and the government's counsel believes that he obtained from Henry C. Folger, Jr., and Calvin M. Payne, two of the witnesses, testimony in support of the government's contention. Both witnesses testified that they held official positions with the Standard and that from 1898, when the refinery was built, to 1906 they held the stock of the company for the National Transit company. In 1906, they said, they purchased the Corsicana stock by a verbal agreement with John D. Archbold to pay for it in ten years. Mr. Folger testified that the management of the Corsicana company was continued along the same lines as before the sale by the National Transit company, a subsidiary of the Standard Oil company.

The oil hearings will be adjourned after Friday over the early part of next week to permit John G. Milburn, counsel for the defendants, to attend the McKinley monument exercises in Canton, O.

MUNICIPAL OWNERSHIP.

Meets With Defeat in Four Wisconsin Cities.

Milwaukee, Sept. 26.—Municipal ownership of waterworks plants was defeated Wednesday in four Wisconsin cities. At Manitowish the vote against city ownership by buying the present plant for \$230,000 was defeated. At Racine it was found impossible to get brokers to take city bonds for \$410,000 for a municipally owned plant. At Sheboygan the same trouble is experienced, the price of that plant being \$400,000. At Appleton the supreme court rendered a decision which fixes a rate for service so low that the people will drop the agitation for a city owned plant.

Vessel Capsized by a Squall.

Boston, Sept. 26.—One man lost his life and three others were rescued from their capsized vessel, the British schooner Princess of Avon, off Nahant Wednesday. Elbie Norman of Hantsport, N. S., the cook, was drowned. The vessel was capsized by a squall.

Dreyfus Out of the Army.

Paris, Sept. 26.—The retirement from the army of Major Alfred Dreyfus has been gazetted in the nomination of an officer to the post last held by him, that of commander of artillery at St. Denis.

SENSATION IN BORAH TRIAL

Witness Admits He Had Been Promised Immunity for Testifying.

Boise, Ida., Sept. 26.—The first sensation in the trial here of Senator William E. Borah came late Wednesday when Albert K. Lanop Nugent, the second witness produced by the government, admitted on cross-examination that he committed perjury in taking out a timber land claim; admitted that he had been promised immunity by an officer of the federal government for testifying, that at the request of the federal officer he had sworn to a complaint against a man whom he did not know and lastly proclaimed that he believed it to be part of his bargain for immunity that he should swear to any complaint against any person regardless of any knowledge that he might have as to the person's guilt.

When the name of the federal officer who induced him to sign the complaint was asked by Senator Borah's counsel, the witness swore that he could not remember it.

The day was given to the introduction of a mass of paper on file in the land office here at Boise and to the evidence of two men who said they received money from John I. Wells with which to prove their timber land claims. Wells is one of the men indicted with Senator Borah. Counsel for the latter did not object to this testimony on the understanding that the transaction in question would ultimately be connected in some way with the senator.

The defense scored its first point early in the examination of the first witness, a man named Anderson. He was asked by Special Prosecutor Rush what his intent was when he took out a timber claim. Judge Whitson sustained an objection based on the ground that a man confessing perjury as Anderson did could not properly testify as to any secret intent he may have had. Anderson and Nugent both testified that they received from John Wells \$412 with which to prove their claims, and each received \$250 additional for transferring the claims to the Barber Lumber company.

Two bills given to the men by Wells and a letter from Wells to Nugent were admitted in evidence. Anderson was not cross-examined, but Nugent admitted that he had made no agreement to transfer his lands at the time he filed upon them. He said that there never was anything but a verbal agreement and he could not remember where and in whose presence such a contract was made.

HIS CHALLENGE DECLINED

New York Yacht Club Refuses to Accept Lipton's Offer.

New York, Sept. 26.—Sir Thomas Lipton's challenge for a contest for the America's cup in 1908 was declined Wednesday night by the New York Yacht club. Sir Thomas asked for a race of sloops under the 68-foot rating and the members of the club based their refusal to race on the general proposition that the America's cup represents a trophy for the speediest type of yacht that can be produced on a water-line length of ninety feet or under, and that, therefore, any proposition to limit the size of the boats must be refused.

The members of the New York Yacht club at the meeting called to consider Sir Thomas' fourth challenge for a cup race voted unanimously to reject the challenge after Lewis Cass Ledyard, former commodore of the club, made a speech in which he described the deed of gift governing cup contests as drawn up by George L. Schuyler in 1887. Mr. Ledyard then presented a resolution declaring that the club could not take the position of limiting the water-line length of the boats under the deed of gift.

Commodore Cornelius Vanderbilt, chairman of the meeting, appointed a cup committee to convene immediately after the meeting and prepare a reply to the challenge. The cup committee, made up of Commodore Vanderbilt, J. P. Morgan, Lewis Cass Ledyard, E. D. Morgan, F. G. Bourne, Henry Walters, J. Rogers Maxwell and C. Oliver Iselin, held a session which continued long after midnight.

The sentiment of the club members at the meeting was that the Reliance, the winner of the last America's cup races, was still an unbeaten boat and that a race for the blue ribbon of the seas with smaller and, therefore, slower boats, was out of the question.

Union May Call Out All Operators Now at Work.

FAVORED BY NEW YORKERS

Plan to Call Out All Leased Wire Operators in Press and Brokers' Offices Sanctioned by the Local Union. National Officers Urged to Act.

New York, Sept. 26.—The New York local of the Commercial Telegraphers' union voted Wednesday night to call out all leased wire operators employed by the press and brokers' offices in this city, if such action shall be sanctioned by the national officers. Action by the national officers will be awaited before anything further is done. It was voted also to ask the national officers to issue a call for the brokers and press telegraphers throughout the country to quit work. The demand upon the men who are now working under contract is made in the interests of those who have struck against the Western Union and Postal Telegraph companies.

The decision to call upon the press and broker operators to break their individual contracts and undertake a sympathetic strike was reached after a heated debate in New York local No. 16. On the final vote it was declared that the strikers were practically unanimous.

An effort to involve the men now appealed to has been made repeatedly but in each instance heretofore a resolution asking for a systematic strike has been tabled. Such a resolution was introduced Sunday, but promptly tabled. Daniel L. Russell, chairman of the strike committee, who until Wednesday had opposed the movement for a sympathetic strike, Wednesday night made a vigorous speech in which he reversed his position and declared that expediency demanded such a measure.

Could Not Stem the Tide.

Chester L. Hall, chairman of the Wall street chapel, opposed the motion, but was frequently interrupted and finally, acknowledging that he could not stem the tide, desisted in his attempt to present the matter from the viewpoint of the Wall street operators.

An amendment introduced by John G. McCloskey of the Hearst news service exempting from the strike operators of leased wires who were bound by a union contract with their employers signed six months previous to the strike of the commercial men, was defeated amid much cheering and the original resolution passed with little opposition.

The local strikers await the sanction of their action by President S. J. Small, who is now in Chicago. This approval they expect, and when such

is received, will immediately set a date when the press and Wall street men shall be called out.

After the meeting Chairman Russell said that if the present course proves ineffective, the railroad operators will be asked to quit work.

Decline to Discuss the Matter.

Chicago, Sept. 26.—The national officers of the telegraphers' union declined to say whether they would sanction the strike voted by the New York local. "A special convention may be called to take the matter when it comes before us officially," said Secretary Wesley Russell. He added that similar action had been taken by about ten locals in different parts of the country.

CHALLENGE NOT ACCEPTED

Railroad Attorneys May Ignore Defl of Minnesota's Attorney General.

St. Paul, Sept. 26.—The attorneys for the stockholders of the Northern Pacific railroad as yet have not accepted the challenge of Attorney General Young to take a short cut to the United States supreme court by way of contempt and habeas corpus proceedings for the purpose of determining the validity of Judge Lochren's preliminary injunction in the rate cases.

The question which the attorney general desires to bring to an immediate issue before the court of last resort is whether a federal judge can tie the hands of a state official to prevent him from enforcing a law which is alleged to be repugnant to the federal Constitution. With this end in view the attorney general deliberately disobeyed Judge Lochren's injunction, hoping that the attorneys for the railroad stockholders would take up the challenge by having him cited before Judge Lochren for contempt.

By being adjudged in contempt the attorney general hoped to break into jail, constructively at least, and then have the question taken directly to the supreme court of the United States by a writ of habeas corpus.

The attorney general's plan, however, has not met with instantaneous response on the part of the railroad attorneys, and so far he has not succeeded in drawing their fire. Unless the railroad attorneys or Judge Lochren of his own motion should take up the matter the rate cases will have to proceed in the usual way.

Drunk on Smoking.

Moslems are forbidden to drink wines or spirits, but in Tunis they contrive to reach the same ends by smoking preparations of hemp flowers. The milder kind is called kif, and if it is used in moderation it has no more effect than wine, but the concentrated essence, known as chira, produces intoxication as quickly as raw spirits and leads to delirium tremens.—London Saturday Review.

The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing hope to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach we are utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Dr. Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Advisor will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

WANT MORE ROOM AT TIE PLANT

Northern Pacific Railroad Said
to be Trying to Secure
More Yard Room

BIG GRADING OUTFIT THERE

Plant About Ready to Run—
Hundreds of Thousands of
Ties Ready for Treatment

According to reports the Northern Pacific railroad is negotiating for a strip of land along the south side of its present right of way at the tie preserving plant west of the river. The tract sought to be purchased, it is said, is 150 feet wide and about a half a mile long. The grading outfit belonging to Daugherty & Dempsey, who did the grading on the Minnesota & International extension, is camped there and has been doing a large amount of work. They are working a small crew at present, but have thirty teams and about thirty-five men there.

The company has a boarding outfit at the tie plant capable of accommodating 100 men, but at present there are only about fifteen men boarding there. It is expected however that there will be a large number at work as soon as the plant starts.

The plant is about ready to start, in fact could be started at any time, although there are some finishing touches to be put on as is always the case after a big plant is thought to be ready for operation. The Columbia Creosoting company, which erected the plant is to furnish a man to run it for six days before it is accepted and paid for by the railroad company, and his arrival and that of the railroad company's electrician, who will have charge of the electric railroad at the plant, are awaited. When they arrive it is probable that the plant will be started at once.

There is now a large number of ties on hand to be treated. There are said to be over 140,000 peeled and piled west of the plant and there are a large number, probably 50,000 unloaded west of the plant awaiting peeling and a yard nearly as large east of the plant is well filled. The work of unloading ties is going on all the time. There are two or three crews working by the day while a number of men are working by the piece. The company pays \$1.75 per hundred for unloading birch ties and two men working together unloaded 800 one day recently. It is hard work, but certainly pays well. The men engaged in unloading wear heavy pads, usually horse collar sweat pads, doubled, on their shoulders to protect them.

The trolley line, which will handle the ties in the plant is now complete and the motor cars are here. The track is a narrow gauge and the cars are of iron built especially for the work. A train of sixteen cars will be pushed into each retort for treatment at one time. All the buildings are of corrugated steel or steel framework and are made as nearly fire proof as is possible. The big storage tank has been filled with the creosote, there having been ten tank cars of it received, it is said. It is pumped by steam pumps from the tank cars into the storage tanks and from them by the same power into the retorts.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years it was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by druggists, 75c.

OFF FOR THE FAIR

Quite a Number of Brainerd Citizens
Went to Pequot This Afternoon
to Attend Fair

There were quite a number of Brainerd business men and others went to the Crow Wing county fair at Pequot today. Hon. I. W. Bouck and N. H. Ingersoll went up on the freight this forenoon and County Auditor Smart, Register of Deeds Trommald, County Treasurer Adair, County Commissioner Krech, Attorney A. T. Larson, A. K. Lukens, George West and Adam Armstrong and perhaps others, went up on the passenger this afternoon to see what Crow Wing county has to offer in the way of agricultural exhibits.

The Touch That Heals

Is the touch of Bucklin's Arnica Salve. It's the happiest combination of Arnica flowers and healing balsams ever compounded. No matter how old the sore or ulcer is, this Salve will cure it. For burns, scalds, cuts, wounds or piles, it has no equal. Guaranteed by H. P. Dunn & Co. druggist. 25c.

An Important Notice

An important business meeting of the First Congregational church will take place tonight at 8 o'clock in the church parlors. Business—selecting a pastor. All members and friends of the church are invited.

C. BRUHN, Clerk.

SOCIAL DOINGS

The social held by the Epworth League at the Methodist church last evening was attended by some 75 young people. A very pleasant musical program was presented, including a drawing contest and an impromptu manuscript local paper. Misses Hanson, Lyndon, Whitford, Drexler, Fuller and Rank, Messrs. Holder, Fuller, Nitterauer, Davis, Manville and Gregory assisted in the program. Light refreshments were served.

Health in the Canal Zone

The high wages paid make it a mighty temptation to our young artists to join the force of skilled workmen needed to construct the Panama Canal. Many are restrained however by the fear of fevers and malaria. It is the knowing ones—those who have used Electric Bitters, who go there without this fear, well knowing they are safe from malarious influence with Electric Bitters on hand. Cures blood poison too, biliousness, weakness and all stomach, liver and kidney troubles. Guaranteed by H. P. Dunn & Co. druggists. 50c.

B. Y. P. U. Entertainment

The young people of the First Baptist church will give this program with refreshments at the church tomorrow evening at 8 o'clock:

A Humane Appeal

A humane citizen of Richmond, Ind., Mr. U. D. Williams, 107 West Main St., says: "I appeal to all persons with weak lungs to take Dr. King's New Discovery, the only remedy that has helped me and fully comes up to the proprietor's recommendation." It saves more lives than all other throat and lung remedies put together. Used as a cough and cold cure the world over. Cures asthma, bronchitis, croup, whooping cough, quincy, hoarseness, and phthisis, stops hemorrhages of the lungs and builds them up. Guaranteed at H. P. Dunn & Co's drug store. 50c and 1.00. Boilermakers and Helpers to
Have Ball Game Next Sunday—
Band to Turn Out

PROCEEDS FOR STRIKE FUNDS

Expected That Many Tickets will
be Sold and There Will be a
Good Attendance

The boilermakers have organized a ball team and are to play the boiler-maker's helpers next Sunday to raise funds for the support of the strike. The boys are doing some hard practicing on both sides and expect to put up a lively game. The helpers are congratulating themselves that Baldy Murphy and Tommy Templeton have left town and with them out of it hope to win the game. It is reported that the band will assist in entertaining the crowd and a good time is expected. A committee of the boilermakers and helpers will probably canvas the city for the sale of tickets and the boys hope to add a neat sum to their treasury.

Sale of House Plants

On next Friday and Saturday in the Pearce block, there will be held a sale of plants, ferns and other choice plants. The display will be an exceptional one and should be well patronized by the public.

DEERWOOD NOTES

Albert Olson went to Brainerd last Saturday evening to spend Sunday. We wonder why—and it rained too.

Emil Swanson and John Olson left Deerwood on Monday morning for Hibbing. They will be greatly missed by their lady friends.

Miss Ida Carlson left for Milwaukee last Thursday and enroute will visit in St. Paul for a week with her sister, Mrs. Walberg. Her sister, Miss Olga, accompanied her as far as Brainerd.

Mrs. F. C. Gounley and children left for Missoula, Mont., Monday night to join her husband. She was accompanied as far as Staples by her mother, Mrs. Harry Patterson.

Mr. and Mrs. Mendenhall and Dr. and Mrs. Webster and Mr. and Mrs. Sloss and mother, all from Canton, Ill., left on Monday for their home after spending the past two months at the "Tourist Home." They have been here for the past few summers on account of hay fever.

The Norwegian Ladies' Aid will meet with Mrs. Mattson, Hamlet Lake, on Thursday afternoon.

Mr. and Mrs. J. W. Schenck were Brainerd visitors between trains on Tuesday. They accompanied their sister, Mrs. Robison, who has been visiting at the Schenck home for the past week.

Mrs. Harry Patterson spent Tuesday in Brainerd shopping, also calling on Mrs. R. B. Coffin, who is sick at St. Joseph's hospital.

Mrs. R. B. Coffin was taken to St. Joseph's hospital in Brainerd last Friday, to have an operation performed. The operation was successfully performed Saturday morning and we are pleased to learn that she is doing nicely and hopes for a speedy recovery. Dr. Reid accompanied her and returned Saturday afternoon.

We had our first killing frost on Tuesday night.

Mr. Kruse received a new piano from Raudenbush manufacturing company, of St. Paul on Friday last.

Rev. Parish returned from Braham, Minn., on Thursday, where he attended the dedication of their new Methodist church.

PATTERSON-MCKAY

On Thursday, Sept. 13, at 9:15 a. m., at Parsons, Kansas, Thomas H. Patterson and Miss Faye McKay were married. Miss McKay is the oldest daughter of S. A. McKay, the chief engineer for the Parson's Electric Light & Power Co., and a very popular young lady of Parson. Mr. Patterson is the only son of Harry Patterson, of Deerwood, and was born and brought up here. He received his education as telegrapher at St. Paul, and after completing his education worked as operator for the Great Northern at Wrenshall, Brooks, Virginia and Grand Rapids, which place he held before leaving for Kansas, where he is now operator for the Missouri, Kansas & Texas railroad.

This comes as a complete surprise to the many friends of Tom here as we had not planned on his entering the matrimonial yoke, however, we all join in wishing Mr. Patterson and his wife a long life and much happiness and trust that Tom may continue his career in life in the same straightforward and honest way in which he began. Mr. and Mrs. Thomas H. Patterson are at home to their friends at 2331 Morgan avenue, Parson, Kan., after Sept. 22, 1907. The boys think it a mean shame that they cannot get a hold of Tom and make him treat in honor of the occasion. They are going to keep this in mind, however, until he does come home.

"Raffles"

There was not a very large turnout at the opera house Wednesday evening to witness the portrayal of "Raffles" by S. Miller Kent, but it was certainly an enthusiastic one. The production received more hearty applause and there were more persistent curtain calls than have been received by any actor or production in many moons. That S. Miller Kent is an artist in his line is evident the moment he comes on the stage and the evidence of it accumulates during the entire performance. The cast which supports him is a strong one, even the minor parts being carried by those capable of sustaining much more important roles. There is little chance for individual criticism, all doing such uniformly high class work. They hold the attention so absorbingly that it is almost painful and a sigh of relief arose when the curtain fell on each act. It was truly a great performance and those who failed to attend missed a treat.

Sousa's Band

Milwaukee (Wis.) Journal:—"It is, after all, John Philip Sousa and his Band that touches the American heart most. No one has done more for the development of musical taste, where the great masses are concerned, than John Philip Sousa, for the clever intermingling of music of artistic merit with his popular march program he has acquainted the people at large with a higher class of music. And thus Sousa's has been an educational mission, whose importance and value cannot be over-estimated."

"Human Hearts"

"Human Hearts," the "idyl" of the Arkansas Hills, will be produced at the opera house tomorrow night. Like Shore Acres and The Old Homestead, time only increases its hold upon the hearts of the people. The prattle of an innocent child, the tears of an old blind mother, the strong love of a simple country girl, the truth of a half-wit, the love of an old time negro, the passion of an adventuress and the tender memory of a dead mother of the past of the governor of Arkansas, are all cleverly intermingled by the deft hand of the author of this absorbing tale of the Arkansas Hills. Each succeeding season of this thrilling play's annually increasing business, has induced the management to engage for this season's production one of the strongest companies ever organized in one cast. To the lovers of a good play, not one on the list this season will appeal more strongly than "Human Hearts."

CONTEST OVER AN OFFICE

Fight on for Secretaryship of Bankers' Association.

Atlantic City, N. J., Sept. 26.—Wednesday's session of the thirty-third annual convention of the American Bankers' association developed a contest over the secretaryship, a position which pays \$12,000 a year and which James R. Branch of New York has held for eleven years. The contest arose during the nominations for ten new members of the executive council, which appoints the secretary. Nominations for council membership are equivalent to an election.

There were no contests over the presidency or vice presidency. James D. Powers of Louisville was elected president, taking the place of G. S. Whitson of New York. George M. Reynolds of Chicago, now chairman of the executive council, was named for vice president.

Those opposed to Branch made a strong fight to elect their candidates to the new council. Their candidate for secretary is Colonel F. E. Farnsworth of the Michigan Bankers' association.

The nomination for council members resulted, the anti-Branch people claim, in the selection of at least eight new council members opposed to the present secretary.

Although those opposed to Branch declare that he will not be reappointed and may not be a candidate for the secretaryship, Branch himself declared that a majority of those chosen Wednesday are his friends. The council consists of thirty-nine members, ten retiring each year.

HOW TO SECURE VOTES

On one dollar (\$1.00) or more paid to us, either on old or new business, before Dec. 31st, we will issue votes in accordance with the following table. By old business we mean moneys paid on old accounts, and new business means cash sales.

Now with a little energy any contestant can readily learn of people who are buying or have bought pianos or musical instruments, sheet music, etc., of us, or people contemplating buying pianos or musical goods of any description of us in the near future. The purchasers receiving these tickets can enter their own names as contestants or give them to whom they please, but as comparatively few of our thousands of customers will be actual contestants, a large percentage of these votes can be had for the asking.

This Is Your Opportunity, Will You Grasp It?

Will you be one of the one thousand fortunate winners? It is up to you. We are giving you the opportunity, and are ready to co-operate with you and assist you in every legitimate way that we can, and if you will go into the contest with some snap and energy we know that you can win one of the big prizes.

Now is the time to harvest votes, don't wait until the tail end of the contest and be handicapped by those who got in at the beginning. Start today, while the contest is in its infancy, and work a little time every day, and you can have your selection of those seven Grand Pianos.

Important We have been asked many times if we did not, toward the end of the contest, intend to increase the number of votes given for each dollar. We will say positively and emphatically that the number of votes will not be any greater at any period than the above table now shows, and

CONSPIRACY IN CUBA

Plan to Start a Revolutionary Movement Discovered.

FINANCED BY AMERICANS

New York Capitalists Reported to Be Backing the Contemplated Uprising. Governor Magoon Closely Watching the Situation.

Havana, Sept. 26.—A conspiracy to start a revolutionary movement in Cuba has been discovered. Under instructions issued by Governor Magoon a number of suspicious persons have been shadowed for several days. It is said that the movement is backed by New York capitalists.

Governor Magoon has been aware for several days that certain individuals were conspiring against the government, but he did not attach much importance to the matter because these persons were under constant surveillance and the Cuban rural guard and American forces in the island had been so assigned as to be able to crush any open movement in a few hours. The fact that Governor Magoon was cognizant of the conspiracy and the movements of the agitators seems to have served to suppress the threatened outbreak and advice received by the government from all the provinces show there is no ground for apprehension.

A report was current here Wednesday that a number of local merchants had met for the purpose of informing the world of the actual situation in Cuba. Careful investigation proved this rumor untrue. The report of a possible railroad strike has no connection with the conspiracy. Neither is there any connection between the conspiracy and Governor Magoon's recent attitude toward the striking cigarmakers.

It is a fact, however, that certain men have been conspiring to start a revolution simultaneously in the extreme eastern and extreme western provinces and members of the secret police

Have Been Shadowing Cubans

prominent politically, or who had taken leading parts in former revolutionary outbreaks. These individuals were not molested for several reasons, one being the fact that they were seemingly well supplied with money which they were distributing to recruits, and the government was anxious to locate the source of this wealth.

Another reason for permitting the suspects to remain at liberty had been the difficulty in proving the conspiracy charge and the fact that the government wanted to give the conspirators plenty of rope to hang themselves.

It is declared that Maso Parra has been the leader of the activity. Parra has led several Latin-American revolutions. He tried to enter Cuba after being expelled two years ago, but the Palma administration kept him out.

Parra landed in Cuba several weeks ago. Considering his previous record the fact that he was permitted to return was commented upon. It is persistently stated here that the money to finance the revolution was furnished from Wall street. There are reports that a certain American who was in Cuba recently and spent four days in Havana is connected with the conspiracy. The movements of this man were mysterious.

There is every reason to believe that only one of the prominent officers who were parties to the pact with Secretary Taft is connected with this conspiracy. General Pino Guerra, General Jose Miguel Gomez and the other Cubans who led the revolution against Palma are earnestly opposed to this movement and stand ready to take the field with the government forces should an outbreak occur.

WEDS MUSIC MASTER.

Countess Montignoso, Ex-Crown Princess of Saxony.

London, Sept. 26.—The Countess Montignoso, ex-crown princess of Saxony, and Signor Toselli, the music master, were married during the day at a registry office on the Strand, this city. Only three witnesses were present at the marriage, which was surrounded with profound secrecy.

The couple, who have been staying at an obscure London hotel, left the city immediately after the ceremony. "Louise Antoinette Marie, Countess Montignoso, formerly Louise Antoinette Marie, archduchess of Austria, spinster," was the name the countess entered on the register, while her husband subscribed himself merely as "Enrico Toselli." The latter gave his age as twenty-four and the countess said she was thirty-seven, and described herself as "the divorced wife of Frederick Augustus, crown prince of Saxony, now king of Saxony, and daughter of the Archduke of Austria and grand duke of Tuscany."

Toselli gave his occupation as a professor of music and said he was the son of Alberto Toselli, a professor of languages.

Aged Woman Murdered.

Elgin, Ill., Sept. 26.—Mrs. Silas Baldwin, eighty-three years old, was found in her home at Hampshire, twelve miles northeast of here, with her skull crushed. She died without regaining consciousness. Her husband, who is eighty-five years old, is under arrest and is said to have admitted the deed.

How to Get Rid of Fat

A Remarkable Discovery That Can Reduce Fat Harmlessly at the Rate of a Pound a Day.

Send for a trial box. It may save your life.

A quick, harmless reducer of fat, called Rengo, has come into popular use which far eclipses any method or treatment heretofore used.

Death From "Fatty Heart" Comes at the Most Unexpected Moment.

Rengo is perfectly harmless, pleasant to take, and it is chewed like candy. It attacks abnormal tissue with unerring accuracy, and causes a gradual, harmless but effective reduction in weight, and without leaving wrinkles which are nearly always present after taking drugs and other dangerous materials commonly called "anti-fats."

There is nothing "just as good" as Rengo. For sale by all druggists at \$1.00 per full sized box, or by mail prepaid, by the Rengo Co., 3151 Rengo Bldg., Detroit, Mich. The company will gladly send you a trial package free by mail, if you will write them direct to Detroit; no free packages at drug stores. For sale and recommended in Brainerd by H. F. Dunn, Druggist.
